

## SCENIC II

The Scenic II is set to give Renault a competitive edge in a segment it pioneered in 1996, and has been consistently been ranked number one since. The new Scenic II combines the versatility and roominess of an MPV with the driving pleasure of a sedan, giving it a very distinctive personality. Scenic II also benefits from technical, as well as passive safety innovations which were developed for Renault's high-range models. To be sold initially in five-seat format, Scenic II will also become the only compact MPV in the segment to offer a seven-seater version.

## V-LIMITED SOLD

To commemorate the Petter Solberg's 2003 WRC driver's title, Subaru introduced two special edition Imprezas, the "WRX 2003 V-Limited" and "WRX STi 2003 V-Limited" in Japan. STi V-limited is a limited edition model WRX STi and 555 of them will be produced. Special features includes special suspension, suretrac front/clutch type rear LSDs, front under spoiler, roof vent, aluminum shift knob, special decals and emblems. The suspension is tuned by PWRC driver Toshihiro Arai and it has a 4-way adjustable damper with 15mm lowering springs. One only unit ever brought to Singapore by Garage R Automotives has recently found its new owner. See if you can spot in on the streets.

## APEXI APPROVED

A'PEX exhaust systems are among the best in the world of performance exhausts. Now, they have developed a revolutionary Hybrid Evolution SUS 304 polished stainless-steel single tip exhaust muffler that has been given the green light by the LTA. Despite being designed as free-flow high performance unit, its exhaust sound characteristic has been engineered well within the limits of Singapore's legal decibel range.

**GARAGE R II**

Garage R Automotive Trading have recently relocated themselves from Markono Distri Centre to a larger showroom at 210 Tagore Lane, right beside their very own top tuning house, Fong Mui Garage R Trading, the official distributor for HKS in Singapore and Indonesia. With a healthy display of pre-owned tuned-up performance drives waiting for adoption, Garage R Automotive Trading also specializes in a list of brand new imported exotics like the venerable Subaru Impreza WRX STi Spec-C and the full range of all-new RX-8s, which include the standard 210bhp RX-8 in 5-speed manual, the 4-speed automatic mode Type-E and the top-notch 6-speed Type-S. Do drop by within these two weeks and you may even get to catch a glimpse of the 250bhp RX-8 Type-S, the very first unit to reach our shores.
